

Your strategic ally in transformation

## Our Profile

<https://brightonconsultings.com>  
Indonesia. Singapore. Malaysia

**Academy Brighton Consulting** is a regional firm driving digital learning, workforce transformation, and strategic enablement across Asia. Operating in **Indonesia, Malaysia, and Singapore**, we partner with governments, enterprises, and institutions to modernize talent development and foster sustainable growth. We view learning as a strategic imperative—expanding access to meaningful knowledge, building credentialed ecosystems, and delivering inclusive, scalable solutions with measurable impact.

## Your Strategic Alliance

Academy Brighton Consulting is an authorized partner of Skillsoft, a global leader in corporate learning. Through Gen AI driven platform Percipio, we deliver personalized learning journeys, track upskilling efforts, and support performance goals. Our scalable solutions serve government, education, enterprise, and Small Medium Enterprises—ensuring relevance across diverse sectors and national priorities.

## Our Core Capabilities

We design and deploy learning solutions for evolving workforce needs, including:

- Learning ecosystems with gamification, analytics, and continuous engagement
- End-to-end Learning Experience Platform with features that support learning and development of human capital.
- Strategic partner enablement through training and commercial alignment
- Workforce transformation via AI-driven upskilling, credential tracking and portability

**Academy Brighton Consulting** supports workforce transformation through locally attuned strategies and scalable implementation models. Each solution is tailored to reflect market-specific dynamics—balancing cultural insight, policy alignment and operational excellence to deliver measurable impact.

Dr Peter FS Lee: Managing Director and strategic advisor with over three decades of experience in public sector transformation and digital government. His leadership continues to shape regional strategy and stakeholder alignment.
